

FORAGE FIRST™
WHEN YIELD AND QUALITY MATTER™

P R E M I U M
Grass Star
P A S T U R E M I X

Grass Star Pasture Mix is a two-way mix, endophyte-free, tall fescue and orchardgrass designed to provide the highest forage grass yields. This mixture combines high nutritional value with summer performance, when other cool-season species go dormant.

- Excellent choice for beef production, silage, hay and stockpiled forage
- Performs best under irrigation or in deep soils

Planting Rates:

25-30 lbs. per acre.

Planting Times:

Best in early spring and early fall when weather is cooler and moisture is more reliable.

Use:

All states.

% of Mixture	Species	Suitable Soil Types			Establishment	Persistence	Drought Tolerance	Winter-hardiness	Palatability	Yield Potential	Grazing Tolerance
