

FORAGE FIRST™
WHEN YIELD AND QUALITY MATTER™

P R E M I U M
Triple Crown
P A S T U R E M I X

Triple Crown Pasture Mix is formulated to meet the high nutritional demands of performance, pleasure and work horses.

- Adapted for a wide geographic area
- Combination of grasses and legumes
- Excellent yields of high-energy feed
- Excellent for active horses

Planting Rates:

30-40 lbs. per acre for new pastures; 10-20 lbs. per acre for over-seeding existing pastures.

Planting Times:

Best in early spring and early fall when weather is cooler and moisture is more reliable.

Use:

All states.

% of Mixture	Species	Suitable Soil Types			Establishment	Persistence	Drought Tolerance	Winter-hardiness	Palatability	Yield Potential	Grazing Tolerance
